

Mölkky

Overview:

A traditional Finnish yard throwing game. Suitable for all ages and skill levels.

Setup:

- Stand the 12 pins tightly together in a specific formation about 3–4 meters from the throwing line.

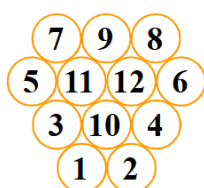

Gameplay:

1. Players take turns throwing the Mölkky to knock over the numbered pins.
2. Knocked-over pins are stood back up **exact spot where they landed**, causing the playing field to expand as the game progresses.
3. A pin only counts as "knocked over" if it rests fully flat on the ground (leaning on another pin does not count).

Scoring System:

- Single Pin: Knocking down exactly one pin awards the point value printed on that specific pin (e.g., knocking down only pin #12 scores 12 points).
- Multiple Pins: Knocking down two or more pins' awards points equal to the number of pins fallen (e.g., knocking down 4 pins scores 4 points, regardless of their numbers).
- Winning: The first player or team to reach exactly 50 points wins.
- Bust Penalty: If a player exceeds 50 points (e.g., reaching 52), their score instantly drops back down to 25 points.

Elimination: Knocking over zero pins on three consecutive turns results in disqualification
